

GE Healthcare

Power you can see and believe in.

As the landscape of PET/CT is changing, GE Healthcare invites you to see the next evolution of PET/CT technologies. Introducing the **Discovery PET/CT 600** – the newest addition to GE's Discovery PET/CT family designed to enable earlier detection and accurate monitoring of disease with more confidence.

With the highest sensitivity in the industry, next generation motion management, high-definition imaging and real-time reconstruction you will see clinically-relevant solutions that benefit you and your patients. Superior healthcare starts with crystal-clear images and ends with a more hopeful outlook. It's a future you can see and believe. **PET/CT Re-imagined.**
